### Summary

This is a portafilterholder used for the standard 54mm portafilter. It's easy with weighing your coffee.

This portafilter holder for your 54mm portafilter. It is handy for weighing your coffee, or clean up your portafilter.

I used PLA, but PETG will also a great material for it.

0,4mm nozzle and I prefer 0,15mm layer height.

Have a nice coffee!
